Windows devices running OS 8.1 or greater can be enrolled with the NotifyMDM server via the native Windows device management client.

For information on policy and security command functionality on Windows 8.1+ devices, see the Device Platform Comparison matrix.

In this Guide:

- Requirements
- Phone Enrollment
- Tablet Enrollment
- Windows 10 Desktop Enrollment

Requirements

- Windows phones or tablets running OS 8.1+
- Windows tablets or PCs running OS 10
- NotifyMDM server version 3.9.1 or greater
Phone Enrollment

The method your organization uses to identify you as an authorized user will determine how you enter your credentials. You will use one of the following methods to enter your credentials.

**Windows 8.1 Phones**

1. Go to **Settings > Workplace**, then tap **Add Account**.

   ![Settings Workplace](image)

   *Some companies offer policies, certificates, and apps that help you connect to your business: What’s a workplace account?*

   Once you add a workplace account, your company will be able to collect personal information, disable apps or features, prevent you from resetting your phone or removing your workplace account, and remotely modify or delete all your content and settings. You can talk with your company’s support person to find out what your company’s policy allows.

2. Enter your full **Email address**. Tap **sign in**.

   ![Workplace Email](image)

3. Enter the **NotifyMDM Server** address. Tap **sign in**.

Tablet Enrollment

Windows 8.1 Tablets

1. Go to PC Settings > Network > Workplace, then tap Add Account.

2. Enter your full Email address in the User ID field.

3. Turn OFF the Automatically detect server address option.

4. Enter the NotifyMDM Server address. Tap Turn on.

5. You will be redirected to a web page for authentication.

6. Enter the Password associated with your email address. The Username and Domain fields may be pre-populated. If not, they can be left blank. Tap Login.

7. Tap Done.
Windows 10 Desktop Enrollment

If you are using a Windows desktop device, follow the instructions below:

1. Navigate to *Settings > Accounts > Work access*.

2. Enter your *Email Address*. Click *Continue*.
3. Enter the NotifyMDM Server Address. Click Continue.

4. Enter your Password. Click Continue. 
   Note: Unless you have been instructed otherwise by your administrator, leave the Domain and User-name field blank. If entering something here, enter it in the following format: of <domain>\<username>.
